3-2. Submit Turnitin (plagiarism checked) Assignments

● Submitting Turnitin Assignments

Turnitin is a tool for checking plagiarism of submitted reports. In addition to web pages and documents on the Internet, other reports submitted for the same Moodle assignments are also compared to determine how much text has been copied.

When a teacher specifies Turnitin check in an assignment, the submitted assignment is automatically checked for plagiarism so that the teacher can see the result.

● Precautions when Submitting Turnitin Assignments

- Please create the file to be submitted in a specified format such as Word, Excel, Text, and PDF. If you submit a file other than the specified one, it will not be checked.
- The first time to submit a Turnitin assignment, you will be asked to consent to the license.
Be sure to click [I agree].
- Please note that if you upload a file more than once to the same assignment in the same course,
the analysis will not start 24 hours after the second upload.

The screenshot shows a web interface for the Turnitin User Agreement. At the top, it says "Turnitin User Agreement". Below that, a blue banner states: "Our user agreement has been updated. Please read our user agreement below and agree or disagree to its terms and conditions:". The main content area is titled "Turnitin End-User License Agreement" and contains several paragraphs of text, including a section for users in the European Union. At the bottom right, there are two buttons: "I disagree" and "I agree". The "I agree" button is highlighted with a red box and a green checkmark.
