■ Change the Default Web Browser

CaLabo MX has a function that displays the content specified by the teacher in a separate tab in the student's browser. Since the linked tab is displayed in the default browser, please follow the steps below to change the default browser to Google Chrome.

Please follow the appropriate steps depending on the version of mac OS you are using.

- For mac OS Ventura

1. Select "System Settings" from the Apple menu in the upper left corner of the screen.
2. In the sidebar, click on "Desktop and Dock".
3. On the right side, scroll down and select Google Chrome from the "Default Web Browser" menu.

- For previous versions of mac OS

1. Select "System Preferences Settings" from the Apple menu in the upper left corner of the screen.
2. Click on "General".
3. Select Google Chrome from the "Default Web Browser" menu.
