

# How to Install CaLabo MX Agent (macOS Ventura)

## — Install with Google Chrome —

In order to teach a class with CaLabo MX, CaLabo Agent must be installed. Please install CaLabo Agent on your PC before the class starts.

1. Start Google Chrome and access <https://mx-sophia.chieru.net/downloadAgent>.
2. Click “Download” (ダウンロードする) of Mac OS.

3. Open the download folder.  
Double-click “cm\_setup\_win.exe”.

4. Drag and drop "CaLabo Agent" into "Applications".
5. Double-click "Applications".

6. Double-click "CaLabo Agent" in the application.

7. If the following screen appears, click "Cancel".

8. Open System Preferences → “Security and Privacy”.

Click on "Open as is" (このまま開く) button to the right of "CaLabo Agent has been blocked from use because its developer cannot be identified”.

※ When the following screen appears, enter the manager password and click "Unlock" (ロックを解除) .

9. Click on "Open" (開く).

■ After installing, enter CaLabo MX class, and if the following screen is displayed, follow the steps below.

10. Click "Open System Settings" (システム設定を開く).

1 1. The system settings screen will appear, turn on "CaLabo Agent" switch.

1 2. Enter the password and click "Unlock" (ロックを解除) .

1 3. Click "Exit and Reopen" (終了して再度開く).

#### ■ Change the Default Web Browser

CaLabo MX has a function that displays the content specified by the teacher in a separate tab in the student's browser. Since the linked tab is displayed in the default browser, please follow the steps below to change the default browser to Google Chrome.

Please follow the appropriate steps depending on the version of mac OS you are using.

##### • For macOS Ventura

1. Select "System Settings" from the Apple menu in the upper left corner of the screen.
2. In the sidebar, click on "Desktop and Dock".
3. On the right side, scroll down and select Google Chrome from the "Default Web Browser" menu.

##### • For previous versions of mac OS

1. Select "System Preferences Settings" from the Apple menu in the upper left corner of the screen.
2. Click on "General".
3. Select Google Chrome from the "Default Web Browser" menu.
