5. For Teachers

Once you create courses on Moodle, you will be able to upload your documents or add assignments on the course. Refer to 'Moodle Teacher's Manual' for the usage of Moodle.

＊ Moodle courses are not connected to Loyola. Students need to register the courses which they take on Moodle by themselves. By default, students who do not take your class can register your Moodle course. When you want to allow only the students who take your class to register your course, you can set "enrolment key" on your course. Refer to 'Moodle Teacher's Manual' for more details.

＊ Technical staff supports you about how to use Moodle, such as making courses, at Staff Preparation Room (Bldg.2 B2F).
