

Please operate the equipment in the AV wagon, following the right.

1 Start Live Streaming Lectures

Set up the system, following another AV manual.
 Insert the USB cable and the HDMI cable into a PC.
 Set up any web meeting application: Zoom, Microsoft Teams and more.

Change the PC setting about the output devices.

- Microphone
 ⇒ Digital audio interface
- Camera
 ⇒ UB3300 USB Video Capture
 ※ When you use Zoom, uncheck "Mirror my video."
- Speaker
 ⇒ MSD-804FD (※)
 ※ Display name is different by any connecting device.
 Select any audio output device connecting by HDMI cable.

Operate the camera by the controller on the AV wagon.

1. Press ③ button to set up if the camera faces the rear.
 The camera usually faces the front and keeps driving, don't need to do anything.
2. Press ② and ①, the angle of view is switched automatically, following the presets registered as any numbers.
3. Adjust the angle of view by Joystick(④).
 Twisting Left: Zoom out, Twisting Right: Zoom in.
 Pushing Left/Right/Up/Down: Pan/Tilt.

2 Finish Live Streaming Lectures

Return cables and finish the system, following another AV manual.
 Don't press ③ of the camera controller.
