1. Overview

The “eduroam JP Federated ID Service” is a service provided by NII (National Institute of Informatics) that issues account for members of educational and research institutions to connect to the wireless LAN (Wi-Fi) when visiting organizations participating in eduroam, both in Japan and overseas.

2. Account Issuance

① Access the service (SP) provided by the Academic Access Management Federation.

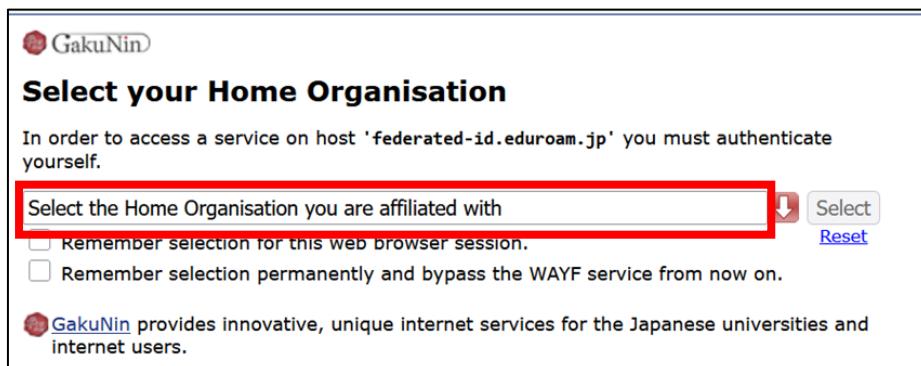

eduroam JP Federated ID Service Login Link (Japanese only):

<https://federated-id.eduroam.jp/>

② Open the above URL and click “Login”.

- [ログイン / Login](#) 

③ Select “Sophia University” from the list of institutions or enter it directly.

④ The Integrated Authentication System login screen will appear. Enter your ID and Sophia ICT account password. If prompted for a one-time code, enter the code and click [Login].

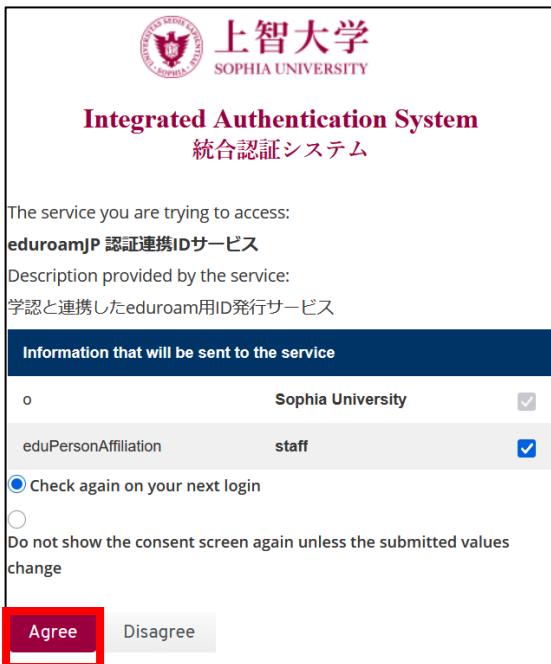

The screen shows the Sophia University logo and the text "Integrated Authentication System 統合認証システム". Below are two input fields: "Login ID" and "Password", both of which are highlighted with a red box. A link "Click the link if you have forgotten your password." and language options "日本語/English" are also present. At the bottom is a large red "Login" button.

The screen shows the Sophia University logo and the text "Integrated Authentication System 統合認証システム". Below is a single input field for "ワンタイムコード (One-time code)" with a red box around it. At the bottom is a red "Login" button and a note "※ログインができない場合は管理者にお問い合わせください。"

⑤ When the screen changes, select the required items and click [Agree].

The screen shows the Sophia University logo and the text "Integrated Authentication System 統合認証システム". It displays the service being accessed: "eduroamJP 認証連携IDサービス" and the service provider's description: "学認と連携したeduroam用ID発行サービス". A dark blue header bar contains the text "Information that will be sent to the service". Below it, a list of items with checkboxes:

- Sophia University
- eduPersonAffiliation staff
- Check again on your next login
- Do not show the consent screen again unless the submitted values change

At the bottom are two buttons: "Agree" (highlighted with a red box) and "Disagree".

⑥ When the screen shown below appears, click ‘New ID/Password Account’.

大学共同利用機関法人 情報・システム研究機構 国立情報学研究所（以下、「研究所」という。）が提供する「eduroam JP認証連携IDサービス」（以下、「本サービス」という。）を利用するにあたり、本サービスの利用機関および利用者（以下、「利用者」という。）が遵守すべき事項を定めるものです。

2. サービスの定義

本サービスは、利用機関のポリシーに基づいてeduroamを利用するためには必要となる、IDおよびパスワード等（以下、「eduroam認証情報」という。）を発行するものであり、以下の機能を提供します。

- eduroamアクセスポイントを介してネットワークに接続するためのeduroam認証情報を利用者に対して期間を限定して発行する機能
- eduroamアクセスポイントを提供する学術機関あるいはISP等（以下、「eduroam提供機関」という。）において、eduroamアクセスポイントに本サービスで発行されたeduroam認証情報を用いて接続しようとする際に、認証要求を受け、eduroam認証情報の正誤を応答する機能

なお、発行されるeduroam認証情報には、利用者を特定する文字列は含まれません（仮名アカウント）。

4. How to Connect

4.1 Windows

① Select 'eduroam' in the order shown below.

② Click [Connect], enter the account information obtained in '2. Account Issuance', and click 'OK'.

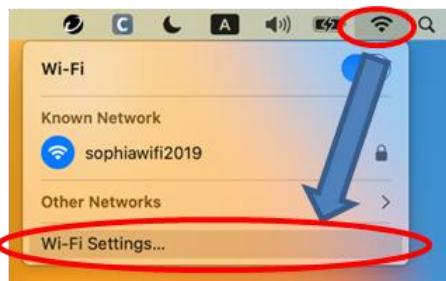

③ When 'Continue connecting?' is displayed, click [Connect].

Connection is complete when 'eduroam' shows 'Connected'.

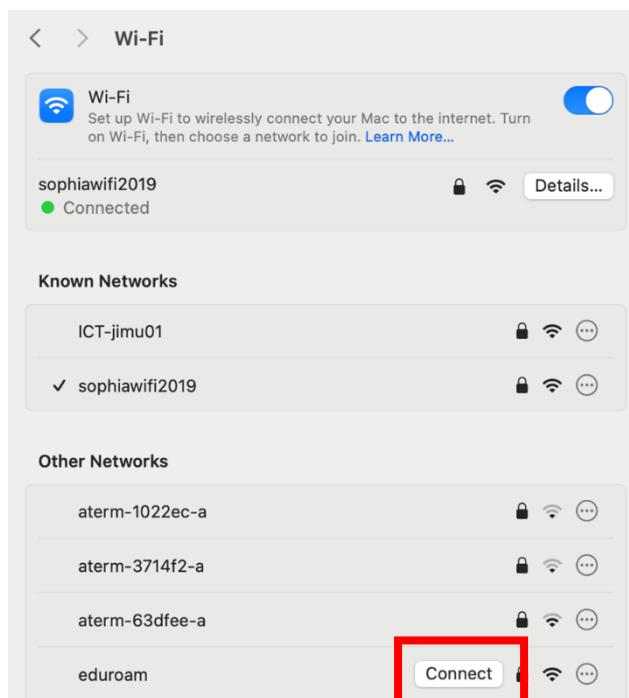

4.2 Mac

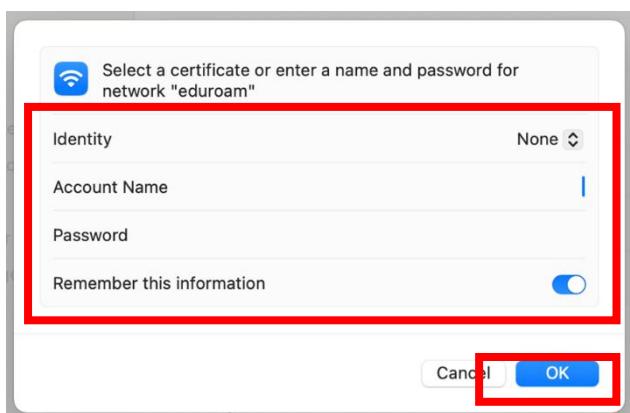

① Click the Wi-Fi icon, and then click ‘Wi-Fi Settings’.

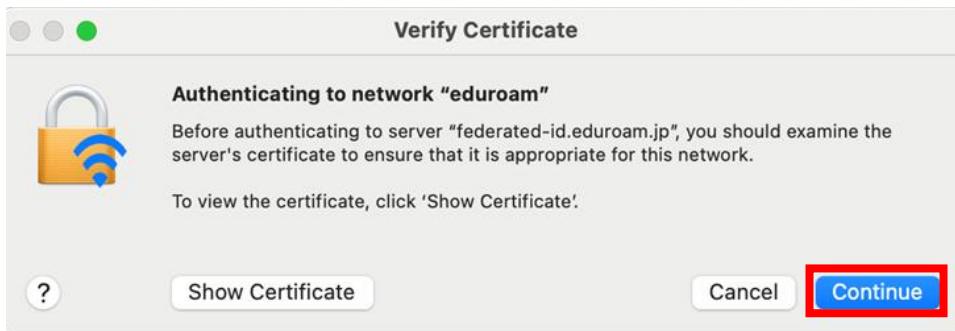

② Hover over ‘eduroam’ and click ‘Connect’.

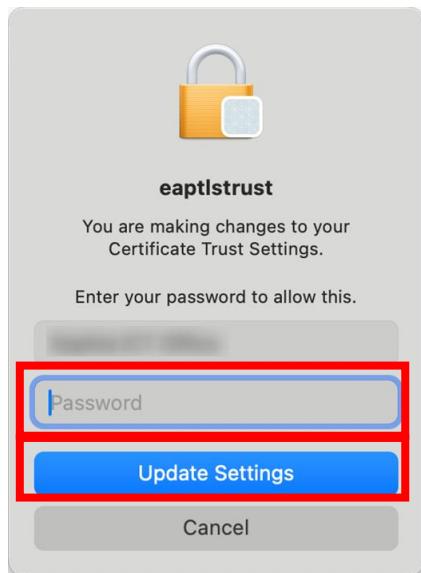

③ Enter the account information obtained in ‘2. Account Issuance’ , and click ‘OK’.

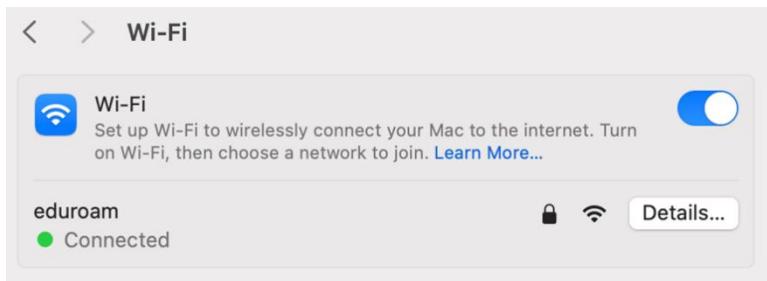

④ If the following message appears, click [Continue].

⑤ If the following message appears, enter the login password for the PC.

⑥ Connection is complete when 'eduroam' shows 'Connected'.

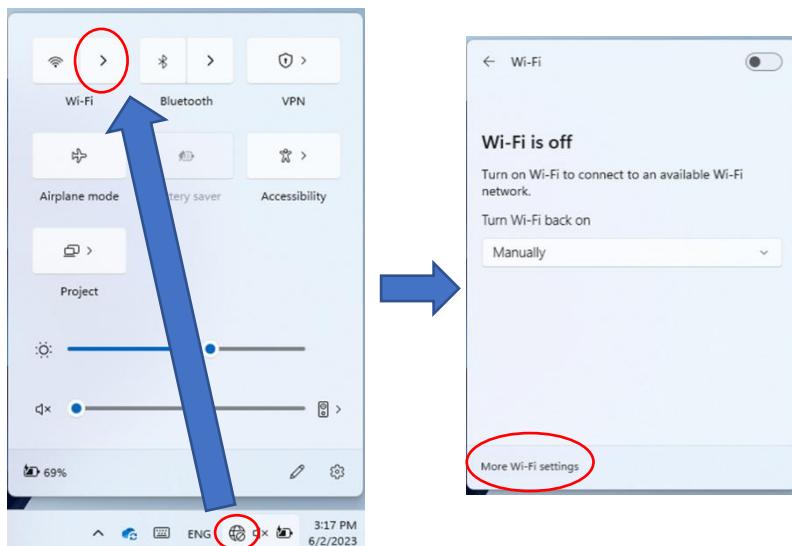

5. Obtaining a New Account / Troubleshooting

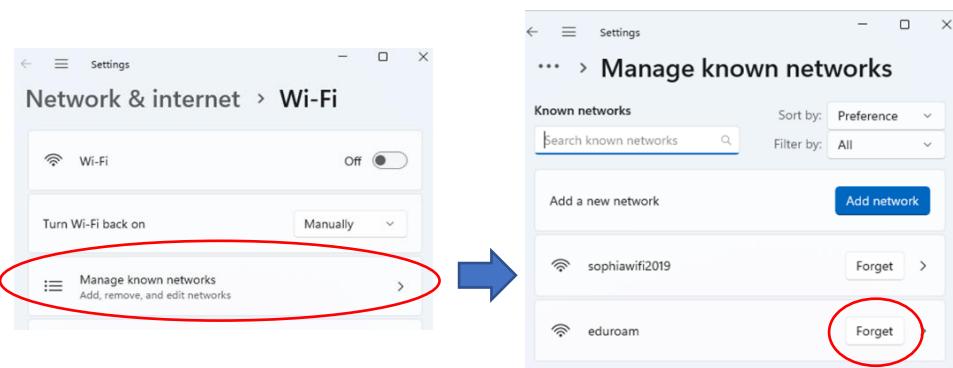

If a new eduroam account has been obtained or if the connection is not successful, the configuration for eduroam must be deleted once and then set up again.

5.1 For Windows

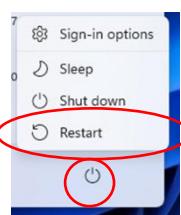

- ① Open Wi-Fi settings in the following order.

- ② Remove “eduroam” from “Manage known networks”.

- ③ Restart the PC and set up the eduroam again.

5.2 For Mac

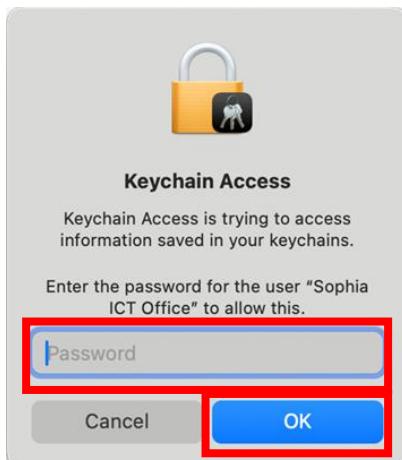

- ① Click the magnifying glass icon at the top of the screen and enter 'key'.
When 'Keychain Access' appears, click it.

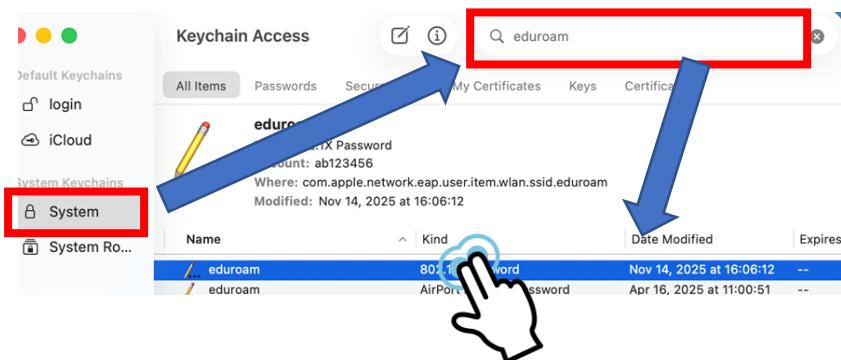

- ② Click 'Open Keychain Access'.

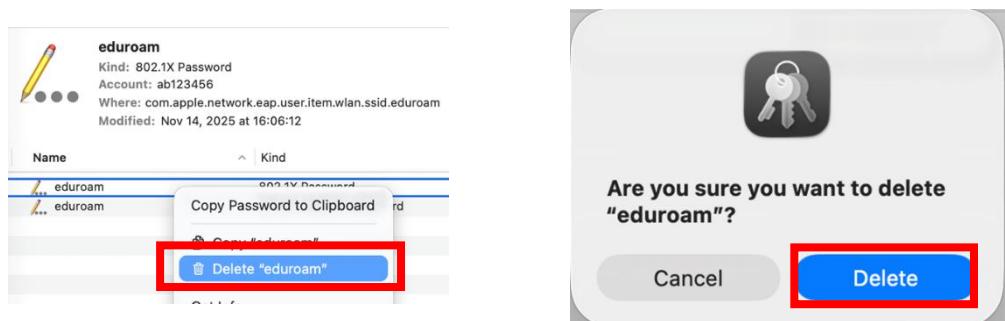

- ③ Enter the login password for your PC.

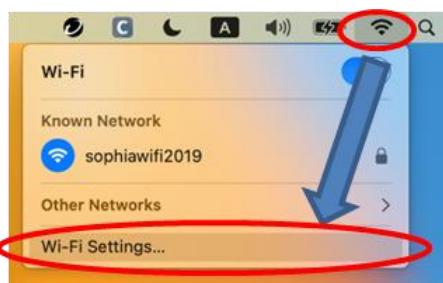

④ Click ‘System’, then enter ‘eduroam’ in the search bar, and click ‘eduroam’ using a two-finger click. (If it does not appear, proceed to step ⑥).

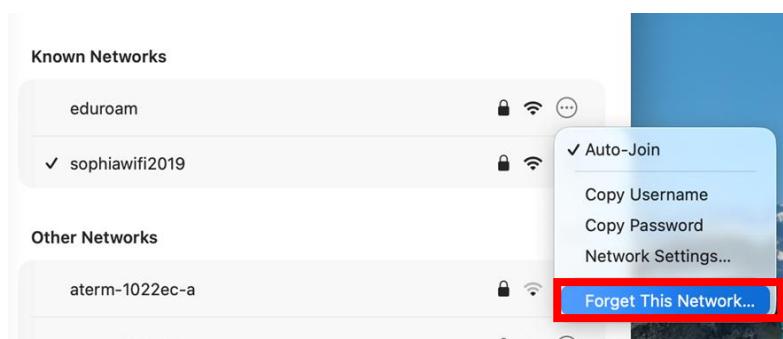

⑤ Select ‘Delete “eduroam”’, and when the pop-up appears, click [Delete]. Confirm that ‘eduroam’ has been removed, and then close Keychain Access

⑥ Click the Wi-Fi icon, and then click ‘Wi-Fi Settings’.

⑦ Click the ‘...’ next to ‘eduroam’, and select ‘Forget This Network’.

⑧ When the pop-up shown below appears, click ‘Forget’.

⑨ Restart the device, and then set up eduroam again.
